

MEET DR. JACOBS

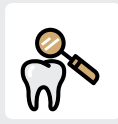

Dr. Solomon Jacobs earned his Bachelor's degree in biology at Georgia State University. He continued his education at the second oldest dental school in the nation- Temple University School of Dentistry in Philadelphia, PA. There, he gained experience at one of the best clinical and research-driven dental programs in the nation. He went on to attend a General Practice Residency program at the Jamaica Hospital Medical Center in New York City. With the hospital being a level one trauma center, Dr. Jacobs received a unique experience that focused heavily on oral surgery and advanced dental procedures.

At Dentistry of Sandy Springs, Dr. Jacobs places an emphasis on conservative dentistry and preventative care as he feels this is the best model for practicing dentistry. Dr. Jacobs recommends patients visit the dentist often for cleanings as this allows us to not only clean the teeth professionally but also gives us the opportunity to identify potential problems before they become major issues for the patient. Regular visits to the dentist allow us to remain conservative with the treatment plan and ultimately leads to healthier teeth and happier patients.

NO DENTAL INSURANCE?

We have a solution just for you!
